1.1 GENERAL COLLEGE INFORMATION

Since its founding in 1970, Westmoreland County Community College has provided affordable, high-quality, postsecondary education to thousands of southwestern Pennsylvania residents.

Westmoreland is a comprehensive community college serving approximately 5,554 students each fall and spring semester at seven locations and online. The college encompasses the main campus and six education centers in Westmoreland, Fayette, and Indiana counties, strategically located to serve every area of the region.

The main campus is located in rural Youngwood, PA, a short distance from the New Stanton Interchange of the Pennsylvania Turnpike off of US Route 119. The 80-acre campus comprises four buildings: Student Achievement Center, Health and Culinary Center, Science Innovation Center and the Business and Industry Center all of which contain general classrooms, smart classrooms and laboratories with modern equipment that provide opportunities for students to gain hands-on experiences in a variety of career fields. Founders Hall also contains the college bookstore, library, student activities center, gymnasium and fitness center, and more. In addition, there are athletic fields for baseball, softball, soccer and other sporting activities.

Westmoreland's state-of-the-art Advanced Technology Center offers education and training for students and incumbent workers in advanced manufacturing. Occupying 73,500-square-feet-of-space at RIDC-Westmoreland in Mount Pleasant, the center features numerous specialized labs to enhance learning including computer-aided drafting and design, computer numerical control, electronics, energy, metallurgy and welding/virtual welding.

Complementing the credit programming are a full array of student services, including financial aid, tutoring, and career placement, and student life activities such as intercollegiate athletics, intramurals and clubs.

The college also offers a variety of continuing education courses in workforce training, professional development, health care, computer training, personal enrichment, homeland security and public safety.

Westmoreland works with government, business and community leaders to continually develop and offer innovative and educational programs to improve the lives of the constituents it serves.

A full description of the Westmoreland College experience can be found at www.westmoreland.edu.

Westmoreland County Community College
Request for Proposal #964
Technology Installation

1.2 SCOPE OF WORK

Westmoreland County Community College is requesting sealed bids from qualified companies that can provide technology installation as per the specifications listed below.

The contractor will be responsible for the installation labor only for this project as all parts and equipment will be provided by the College. This project will involve the technology upgrade in a total of 79 classrooms. The classrooms will be broken down into two different categories, level 1 classroom and level 2 classroom.

There are a total of 54 level 1 classrooms at the main campus in Youngwood, 9 classrooms located at the New Kensington Education Center, 8 classrooms at the Murrysville Education Center, and 2 classrooms at the Public Safety Training center in Smithton, PA. This is a total of 73 level 1 classrooms. Each level 1 classroom will have the following:

- 1 - Sharp 4T-B80CJ1U 4T-B Series - 80" LED display - 4K TV
- 1 - Peerless ST660 Tilt Wall Mounting Kit
- 1 - ezRoom Trio Alert; 2x2 Plenum-Rated Enclosure; RF-Friendly Lid
- 1 - Wall plate to be installed at instructor station

The TV monitor will need to be mounted on the main wall of the classroom in the center of the wall. This will also include a wall box installed behind the TV to accept AV connections. In most cases, the wall will be cinder block material. The TV mounts will be provided by the college and location of installments will be noted in each room. The FrontRow device will need to be mounted in the ceiling (current classroom ceiling is drop ceiling), located as close to the center of the room as possible. In addition to the FrontRow Ceiling mounted device, there will need to be a wall plate installed at the instructor workstation of each classroom. The wall plate will need all of the necessary AV cables connected to the computer, TV monitor and FrontRow device to complete the install. Wiring diagrams and cables will be provided by the college. Each classroom will need to be tested with a college employee present to verify the system is functioning as planned.

There are a total of 6 Level 2 classrooms at the main campus in Youngwood. Each level 2 classroom will have the following:

- 2 - Sharp 4T-B80CJ1U 4T-B Series - 80" LED display - 4K TV
- 2 - Peerless ST660 Tilt Wall Mounting Kit
- 2 - ezRoom Alert; 2x2 Plenum-Rated Ceiling Enclosure; Metal Lid
- 2 - Wall plate to be installed at instructor station

The level 2 classrooms are similar to the level 1 classrooms but are larger in size and should have the capability to be one large room or have a divider to transform it into two smaller rooms giving the College the option to operate the room in two different sizes. The TV monitors will need to be mounted on the side wall of the classroom in the center of the wall. This will also include wall boxes installed behind the TVs to accept AV connections. In most cases, the wall will be cinder block material. The TV mounts will be provided by the college and location of installments will be noted in each room. The FrontRow devices will need to be

This wall plate will need all the necessary AV cables connected to the computer, TV monitor and FrontRow device to complete the install. Wiring diagrams and cables will be provided by the college.
