College in the High School courses are taught in your high school, by high school faculty, but for college credit! The purpose of this handbook is to provide you with the applicable policies and procedures as a College in the High School student. It is organized from the point of the Admissions Process through your grades being submitted and requesting a transcript.

- Exceptions may be made for high school freshman and sophomore students or home-school equivalent students who are able to exhibit readiness for college-level coursework.
- High school freshmen or sophomores will be treated on a case-by-case basis; they must be approved by the high school administration and the Westmoreland Vice President of Enrollment Management, or designee.
- Students must have a GPA of 2.5 or above to be eligible for any College Now! program.

### **Transferring CHS Credits:**

Westmoreland credits can be sent to any college which the student attends after high school. In order to apply to have this credit transferred, a student requests their Westmoreland transcript to be sent through the National Student Clearinghouse (NSC) using this website - [Official Electronic Transcript](#). There is a fee for each transcript. Westmoreland does not dictate the transfer credit policies of other institutions and the college cannot guarantee that CHS credit will transfer successfully. However, experience shows that almost all former CHS credits are approved as either elective credit toward graduation or advanced standing as recognition of advanced study. ### **Associates of Arts Degree:**

With a combination of CHS and Early College credits, it is possible for students to earn an associate degree concurrently with their high school diploma. Forty-nine percent of the credits may be earned through CHS programming. Fifty-one percent must be earned as Early College (which means on campus or online). This requires careful planning and should be done in consultation with an academic advisor and school counselor.

## **Academic Policies and Procedures**

College in the High School students can take up to 15 credits per semester or the equivalent if the district operates on a year-long schedule instead. The maximum number of credits a College in the High School student can earn is 30.

### **Westmoreland Course descriptions:**

Course numbers, titles and descriptions are Westmoreland designations and can be found at:[Westmoreland College Catalog](#)

### **CHS Instructor Eligibility:**

College in High School faculty members must have credentials equivalent to those required for any adjunct instructor. Westmoreland classifies instruction as general studies, occupational studies and vocational studies. Instructors of general studies courses are required to have a master's degree in the discipline. In the absence of that, a CHS instructor who has a master's degree, Pennsylvania Department of Education Level II certification in the discipline, and five years of teaching experience will be considered eligible. Occupational and vocational studies courses do not require a master's degree.

### **Course Eligibility:**

Courses must meet the following criteria to be considered for college credit through the program:

- The courses are non-remedial.
- The courses are in a core academic subject as defined by the college catalog.
- The courses, as offered to College in the High School students at the High School, are equivalent to those offered at the College; including the use of an equivalent curriculum, assessments and instructional materials.
- The courses, as offered to College in the High School students at the High School, enforce prerequisites equivalent to those offered at the college.
- The School District will provide course-level learning outcome assessment data as requested.

Each proposed CHS course is reviewed by the relevant Westmoreland dean and faculty member. As needed, the dean and/or faculty member will request revisions to the proposed course to ensure its equivalency. Additionally, Westmoreland's course syllabus template must be used for each section of each course and a copy on file at the College.

### **Getting Faculty into the System:**

- CHS faculty members fill out an Instructor Request form. The personal information provided on the form is required by Westmoreland's Human Resources department in order to get the instructor into the system and to be assigned a faculty ID number.
- In addition to filling out the form with personal information, the instructor will need to provide a copy of graduate and undergraduate transcripts as well as their teaching certificate.
- The teacher or administrator will be informed of the approval or disapproval of a potential CHS instructor.

**Syllabus Template for Approved Course:**

A syllabus template will be provided to the CHS instructor that includes the course description and course outcomes of the equivalent Westmoreland course. Any highlighted information should be filled out by the instructor. Any other information should remain in the syllabus. Other information includes Westmoreland's withdrawal policy, information about accessing our library and tutoring services as well information on students with disabilities.

Syllabuses should be sent to the division clerk, [Jessica Fry](#) , for the School of Art, Humanities, Social Sciences and Public Service via email after students have been registered in the CHS course. The syllabuses are required to be on file with the college along with all other syllabuses.

**Turning in Final Grades:**

CHS instructors are responsible for entering final grades into the Westmoreland portal for CHS students. Reminders will be sent to the instructor's high school email address with directions on the process prior to the last day of classes at the high school.

Grading occurs once or twice a year depending on whether the course is a semester or a full year course. Instructors should expect a reminder in January for semester courses and May for full year courses.
