1.1 GENERAL COLLEGE INFORMATION

Since its founding in 1970, Westmoreland County Community College has provided affordable, high-quality, postsecondary education to thousands of southwestern Pennsylvania residents.

Westmoreland is a comprehensive community college serving approximately 5,554 students each fall and spring semester at seven locations and online. The college encompasses the main campus and six education centers in Westmoreland, Fayette, and Indiana counties, strategically located to serve every area of the region.

The main campus is located in rural Youngwood, PA, a short distance from the New Stanton Interchange of the Pennsylvania Turnpike off of US Route 119. The 80-acre campus comprises four buildings: Student Achievement Center, Commissioners Hall, Science Innovation Center and the Business and Industry Center all of which contain general classrooms, smart classrooms and laboratories with modern equipment that provide opportunities for students to gain hands-on experiences in a variety of career fields. Founders Hall also contains the college bookstore, library, student activities center, gymnasium and fitness center, and more. In addition, there are athletic fields for baseball, softball, soccer and other sporting activities.

Westmoreland's state-of-the-art Advanced Technology Center offers education and training for students and incumbent workers in advanced manufacturing. Occupying 73,500-square-feet-of-space at RIDC-Westmoreland in Mount Pleasant, the center features numerous specialized labs to enhance learning including computer-aided drafting and design, computer numerical control, electronics, energy, metallurgy and welding/virtual welding.

Complementing the credit programming are a full array of student services, including financial aid, tutoring, and career placement, and student life activities such as intercollegiate athletics, intramurals and clubs.

The college also offers a variety of continuing education courses in workforce training, professional development, health care, computer training, personal enrichment, homeland security and public safety.

Westmoreland works with government, business and community leaders to continually develop and offer innovative and educational programs to improve the lives of the constituents it serves.
