

Health Science, AS

School of Health Professions

The Health Science AS provides the foundation necessary to prepare students for admission to a Health Professions program at Westmoreland or to transfer to a health science or health professions program at a four-year institution to pursue a career in a health-related field requiring a bachelor's or higher degree. The curriculum provides students with a balance of mathematics, science, humanities, English, social sciences and computer skills relevant to employment in health care professions or health-related fields.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Identify anatomical structures and explain the physiological aspects and functions of the human body.
- Demonstrate the use of scientific and mathematical reasoning in the critical analysis and evaluation of problems and the development of research-based solutions.
- Discuss the mental processes and behaviors associated with human psychology.
- Demonstrate mastery of vocabulary and appropriate terminology to understand and effectively communicate information related to anatomy and physiology.
- Demonstrate basic understanding of pharmacology and its use in the treatment of a variety of health conditions.
- Discuss nutrition in the context of body function, lifespan, social, economic and psychological implications.
