

Graphic Design, AFA

School of Art, Humanities, Social Sciences and Public Service

The Graphic Design AFA program offers a foundation curriculum parallel to the first two years of a baccalaureate in fine arts (BFA). As a transfer program, students will begin their graphic design program with foundational learning experience before moving to a senior institution. Students completing the AFA in Graphic Design are prepared for a range of higher education options such as graphic design, brand identity, package design or environmental graphic design. The program is designed to enhance student visual literacy and conceptual skills in a state-of-the-art environment. Adobe's industry-leading digital communication tools and services lay the groundwork to facilitate innovative creative experiences. The components of this program develop technical competency, while cultivating aesthetic judgment, artistic quality and thought maturity that will provide students with a broad range of options for their future careers in visual communications.

The college also offers an AAS in Graphic Communications that prepares students for entry-level positions in production, sales and support in printing and publishing.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Outline key aspects and careers within the graphic design profession.
- Identify major design movements and influences from historical, cultural and social perspectives.
- Analyze and critique student, professional and historical design from multiple cultures and time periods.
- Integrate layout, typography, imagery and color elements in combination with the principles of art, design and visual perception.
- Experiment with concept development and visual planning strategies in the development of creative solutions for contemporary design issues.
- Demonstrate solid foundation skills and competency in the use of analog and digital tools, emerging technology and software applications.
- Incorporate safe practices in the use of various art/design materials, tools and equipment.
- Demonstrate constructive, organized work habits and clear communication skills.
- Prepare a portfolio of work that reflects a high level of conceptual engagement, knowledge and technical skills that demonstrates acceptable competencies for the AFA.
