

Healthcare Management, Diploma

School of Technology

Program Description

The Healthcare Management Diploma program combines course work in human biology, medical terminology, transcription, medical office duties, electronic health record and billing processes. Courses included in this diploma program may be applied toward the Healthcare Management AAS program.

Career Opportunities

Graduates of the Healthcare Management Diploma program may find employment as medical administrative assistants, medical office personnel, medical records assistants, unit secretaries, admissions clerks, claims processors and medical records technicians.

Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Demonstrate proficiency in writing, basic math and communication.
- Collect, prepare, file, store, and retrieve information using various software programs.
- Demonstrate proficiency using practice management and electronic health record software.
- Work independently or in teams to demonstrate effective interpersonal and problem-solving skills, attitudes and work habits.
