

# Computer Technology, AAS

## TECHNICAL SUPPORT

### School of Technology

#### Program Description

The Computer Technology, Technical Support AAS program provides students with a strong foundation in microcomputer applications, including operating systems, PC hardware, productivity applications, and networking. Emphasis will be placed on the installation, configuration, operation, maintenance, and troubleshooting of microcomputer hardware systems, operating systems, websites and application software. Students are prepared to take the Microsoft Office Specialist (MOS) certification exams.

#### Career Opportunities

Graduates of the Computer Technology, Technical Support AAS program may find employment as technical support technicians, network technicians, junior systems analysts, technical sales representatives, customer service technicians, help-desk analysts, IT trainers and Web content developers. Job opportunities will be available with companies in the fields of hardware manufacturing, software publishing, PC consulting, IT engineering and sales, and any company deploying microcomputers in the workplace.

#### Program Learning Outcomes

Upon successfully completing this program, students will be able to:

- Understand the concepts of computer design and operation.
- Install, configure and troubleshoot popular microcomputer applications.
- Describe the principles of WAN/LAN network administration.
- Maintain website content.
- Troubleshoot and repair computer hardware and software.
- Develop competency in the Microsoft Office productivity suite.
- Develop oral, written and listening communication skills.
- Integrate and apply mathematical skills to solve quantitative problems.
