Dear Student,

The Federal Department of Education has required that your financial aid be placed on hold for the 2015-16 academic year. You have been coded with an unusual enrollment history flag and your aid has been suspended until further review. You received this flag because you have attended a high number of education institutions over recent years and received federal aid. We are required to review the reasons for attending these institutions as well as determine if you completed any credits.

Based on the guidelines, students must provide a written statement as to why they attended the past three institutions and why they are now attending WCCC. Also, students must provide academic transcripts for the past three institutions. After we receive the required information, we will determine if your suspension of federal aid can be removed.

If you have any questions, please contact the Financial Aid Office at 724-925-4063.

Thank you.

The Financial Aid Office
