

# Math Pathways

# MATH PATHWAY\*

# MATH PATHWAY FOR HEALTH PROFESSIONS\*

\*The Math Pathways described here count toward graduation at Westmoreland in AAS, AA, and AFA programs. They will also transfer to the majority of four-year institutions. Some four-year colleges and universities require students to complete College Algebra regardless of their program of study. Therefore, all transfer students should check with their intended transfer school to ensure that the math pathway they are on will transfer before registering. Also, a chart is not a replacement for a conversation with an academic advisor, so please make an appointment with your advisor to plan your academic career.

\*\*For all Computer Technology AAS degrees, BUS 120 and MTH 100 or higher will count toward graduation, except for *Programming for the Enterprise* which requires MTH 157.
